

CARBON ACTIVE

APPLICATIONS:

- Deodorization and purification of gaseous pollutants
- NEW ! Nox purification
- Public buildings, airports, hospitals, data-centers, micro

ADVANTAGES:

- Very low pressure drop
- No dust release
- No settling of active carbon over time
- Extremely durable
- Simple, fast, clean and effortless replacement
- Polyurethane rim to ensure a tight seal during placement
- 100% combustible

GENERAL FEATURES:

- Media: compacted activated carbon grains
- Frame: with polyurethane
- Available only in the dimensions above
- Maximum T°: 50°C
- Humidity: 70% RH
- Contact time: 0.12sec

CARBON ACTIVE			
Description	Width A(mm)	Height B(mm)	Thickness C(mm)
